The IPTV World Series is a collection of market leading IPTV conferences and exhibitions that focus on the key marketing, business and technology challenges facing IPTV service providers.

These events are characterised by the high levels of service provider involvement. We work hard to deliver the best conference programmes featuring speakers who are directly involved in shaping and deploying IPTV services.

BUSINESS DEVELOPMENT OPPORTUNITIES

IPTV World Forum Middle East & Africa is the ideal opportunity for new entrants and established players to raise their profile in the IPTV industry. It can be used as the ideal backdrop to promote products and services to a highly targeted audience.
